Assembly

WARNING!

- Overtightening the screws can lead to cracks in the water tank!
- To ensure stability, the base must be filled with water or sand.
- When filled, the stand can be transported by lifting it slightly on one side thanks to the wheels.
- Do not grab the product on the opened corners, please use both hands to open the profiles from the middle and as far away from the corners as possible.
- Caution! The corners may be sharp.
