

single-sided

It is recommended that the display stand be firmly anchored to the ground or bolted into a concrete foundation in very windy or urban areas.

Take care when opening and folding the display stand, as there is a risk of crushing injuries!

①

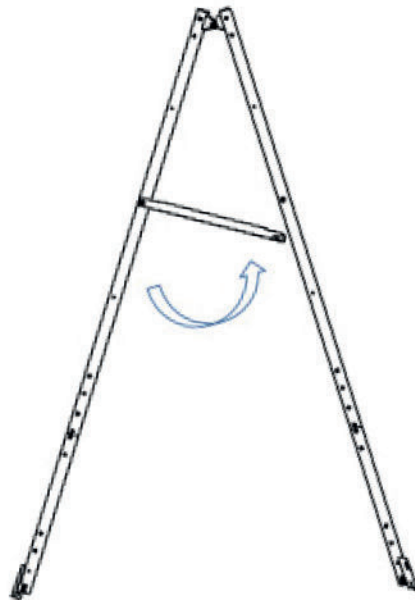

Folding legs (2x)

②

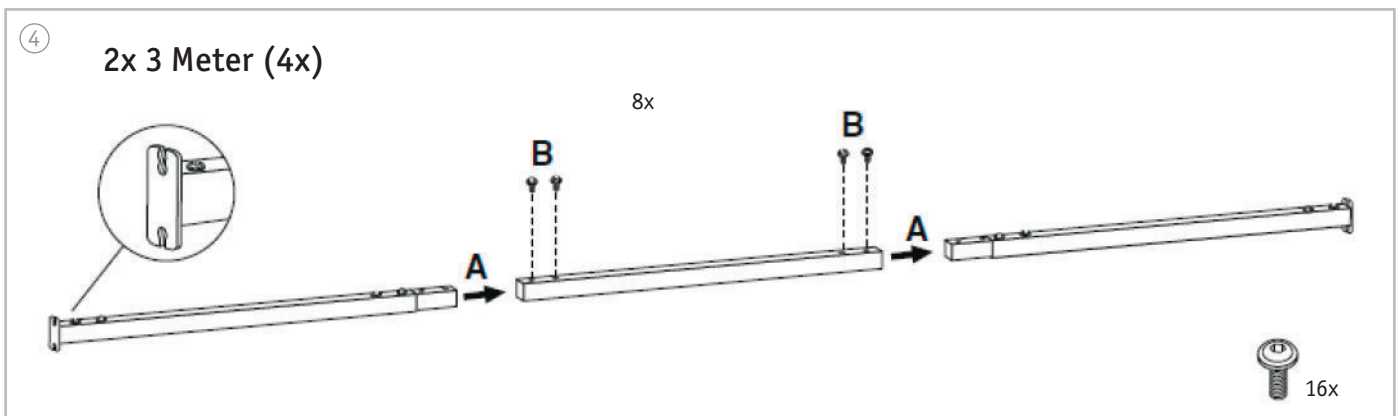

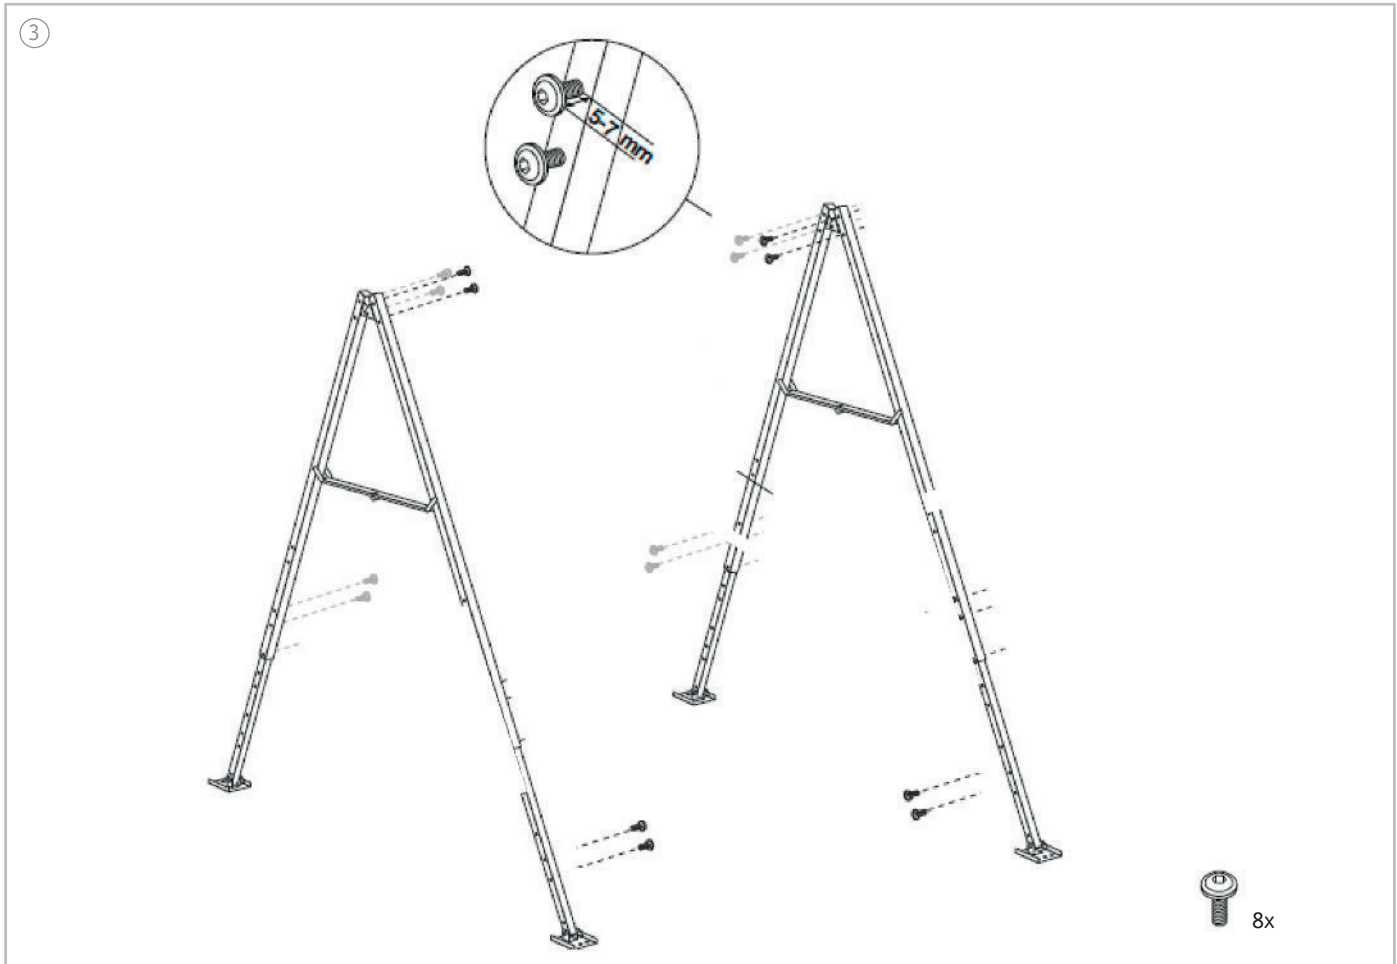

Unfold the legs.

Fold up the brace.

Secure and tighten using screws and nuts.
(M6x45)

**Note:**

The crossbars are delivered in a separate package.
